

# Email and Collaboration Suite.

## MPexchange

MPexchange is an industry leading email and collaboration suite based on Microsoft Exchange 2016/2019, built to a standard of technology, performance, and availability that businesses demand. Deployed in Australia's leading data centres and supported locally through our Australian trained and certified technical support and migration team.

# MPexchange is a true business-grade Microsoft Exchange service that delivers all the benefits of Exchange.

It does this without server maintenance or costs involved with resourcing a fully redundant commercial Exchange environment.

MPexchange's technology, performance and availability is built to Australian business standards and designed for Managed Service Providers (MSPs).

---
