

Stronger Security.
Fewer Tools.
Faster Response.

Guardz is our agentic cybersecurity platform with 24/7 MDR to help you protect SMB clients. Designed for MSPs and priced for small business, Guardz makes security easier.

Guardz.

Making cybersecurity easy

Your clients need protection across identities, email, endpoints, web and data, but disjointed products are difficult to manage and miss out on cross-platform signals. Guardz delivers:

- Unified detection & response that's easy to manage
- Up to 90% less alert noise through AI driven prioritisation
- Clear step by step remediation requiring lower-skilled staff
- Affordable pricing designed for MSPs and SMBs

5 stars

Key Features of Guardz

- ✓ Machine speed threat detection
- ✓ Single dashboard for identities, endpoints, email, cloud and data
- ✓ Automated threat detection, prioritisation and response supported by 24/7 SOC
- ✓ Best-in-class SentinelOne endpoint protection + Check Point email security built in
- ✓ User-centric intelligence surfaces what matters and improves over time.
- ✓ White labelled security assessments and reporting to help you win business.

All delivered with the white glove onboarding, technician training, local support and centralised billing you expect from Manage Protect.

“The Guardz platform fits the small to medium business perfectly. It’s a fantastic product.”

Steve Smith, Tech Director, Elmdale IT

“Things that we were having to go through menus and menus to get, we are now finding in one or two clicks.”

Chris Thomas, Director, Altair IT

“Easy to onboard, reliable, and gives us peace of mind with one platform protecting our business.”

Aaron Kliner, MSP

Plans and Inclusions

Every Guardz plan incorporates SentinelOne's best of breed endpoint detection and response and market-leading email protection from Avanan by Check Point at no additional cost.
